Dear Sir,

In compiling the Yearbook, of which a copy has lately been sent to you, the Bureau has of course laboured under the disadvantages incidental to pioneer work. In the absence of any precedent, our Correspondents have naturally taken diverse views as to the materials to be sent to us, and this diversity is reflected in the Yearbook. It will be possible to remedy this defect in preparing the next issue. In the meanwhile I shall be glad if you will tell me of any errors that you may detect and favour me with any suggestions that may occur to you for improving the Yearbook.

Yours faithfully,

W. H. Dawson

Dear Sir,

It is proposed to distribute from this Bureau to the Universities of the Empire, weekly or at other convenient intervals, such information as may be sent to it concerning vacancies, actual and expected, among University appointments. The Committee anticipate that the Universities will by this means be able to make their wants known more quickly and effectively than by any method at present open to them and at far less cost. It is, however, essential for the success of the scheme that all Universities should co-operate by giving us early notice of such vacancies and by displaying our lists of vacancies on their notice-boards.

A copy of this letter is being sent to the Registrar, together with a supply of forms (specimen enclosed) for notifying vacancies, and addressed envelopes.

Yours faithfully,

Assistant Secretary.

It is not proposed to make any charge for this service.

In Reply, please write to the Secretary.

Monsieur R. Falconer,

Président, Université de Toronto.
Toronto.

Monsieur le Président,

J'ai l'honneur d'accuser réception de votre lettre du 18 courant au sujet d'un projet de conférence des Universités de la Puissance, laquelle conférence pourrait être tenue, dans la dernière semaine de Mai, à l'Université de Toronto ou inversement, pour inviter les représentants des diverses Universités.

Tout en reconnaissant l'utilité d'une semblable réunion, je crois qu'il ne serait pas facile pour nous d'envoyer quelqu'un à Toronto pour l'époque proposée. C'est le temps où nous sommes le plus occupés par les examens et les travaux de la fin de l'année.

Cette réunion ne pourrait-elle

pas avoir lieu à l'automne, c'est-à-dire de
septembre ou au commencement d'octobre par
exemple. et, dans l'entre-temps, ne
pourrait-on pas envoyer aux différentes
universités un sommaire des questions
qu'on se propose d'étudier à cette
réunion? C'est une modification que
je me permets de suggérer.

Cependant, si les universités, en majorité,
désirent que cette assemblée ait lieu
durant la dernière semaine de mai 1915,
nous essayerons d'envoyer un représentant
de Laval.

En attendant, je vous prie d'agréer mes
remerciements et de me croire,

Monsieur le Président,
Votre tout dévoué,

A. E. Gosselin, J.

My dear Falconer:

I duly received your letter of the 18th inst. dealing with the question of a conference of Canadian Universities this spring.

I think that there are various matters about standards of Matriculation, and length of college course, Honour courses, post graduate courses, etc. which ought to be frankly discussed by representatives of our various colleges, and therefore I very heartily approve of such a conference being held.

You suggest as a date the last week in May. As far as I can see now that date would suit me very well, and I hope that I shall learn from you later that the idea of the meeting has appealed to the other college representatives, and that it will be held.

Sincerely yours,

My dear President Falconer:

I have your letter of March 18th with respect to a conference of the Universities in May. Personally, I would very much like to see such a conference held and would be very glad to attend on the date suggested by you, viz., the last week in May. We have had in mind the possibility of getting the Western men together, provided we could not get a full Canadian conference.

In fixing the date would you be good enough to arrange not to have a conflict with the dates of the meeting of the Royal Society of Canada.

I beg to acknowledge receipt of your kind letter advising me of the date of the proposed conference in Toronto.

I appreciate the courtesy of the University in placing a room at my disposal in one of the Residences.

I do not now think of anything that I wish particularly to have discussed except that I should rather like to have some one of the Ontario men tell us how they regulate College Athletics up there and also regarding intercollegiate athletic rules.

Thanking you very much for your kind letter,

Dear President Falconer:

I am in receipt of your favour in reference to the question of a conference of representatives of Canadian Universities, and I think it a good thing to call one early this Summer, and I am glad you have the matter in hand.

It seems to me that the question of the provision of an extended course for Post-graduate study in different Universities is of great importance at the present crisis, and the question of a common Matriculation standard is one that should be considered.

The end of May would, I think, be a convenient time.

Dear President Falconer:-

Your letter was received Saturday evening. I should be very glad to participate in a conference of this kind, but the date which you suggest would be rather unfortunate, for that week, the last week in May, is commencement week at Acadia and Mount Allison. If it might come earlier or later I think it would be well. There are undoubtedly a number of things which could be very profitably talked over by the Presidents of the different Universities.

March 20th, 1915

I am glad to receive your letter in answer to mine.

The replies of the other Universities are favourable, and after consideration of different dates I believe that Friday, the 20th May, will be most convenient for our meeting. I will call it at ten o'clock in the morning.

The University will place a room at your disposal in one of the residences which will be conveniently situated for the purpose of the Conference.

Are there any subjects that occur to you in addition to those I mentioned which you would like to have brought before the Conference for its consideration?

I am,

Yours sincerely,

[illegible]

In May 1912 a conference of the Universities of
trial on the invitation of the Principal of
Bill University. At that conference various educational questions
discussed with a view to the Congress of the Universities of
which was held in London in the following July. On the
the suggestion was made that a similar conference of the
of the Dominion should be held whenever the occasion might
occur. In conversation with members of other Universities
it has been suggested to me that there are sufficient
matters of general interest to justify our holding another conference
spring. If this should be the opinion of the representatives of
the Universities of the Dominion I shall be glad on behalf of
University of Toronto to invite the Universities to hold that conference
in the University of Toronto during the last week of May. Such
questions as standards of matriculation and the curriculum of courses
various degrees might be considered. It would be useful for the
Universities to know charges that are contemplated to have recently come
into effect in the various Universities. Furthermore the
of postgraduate work in the Dominion may be discussed.

University of Toronto.

Dear Sir:

I have now heard from nearly all the Universities of the Dominion and I am glad to know that there is cordial agreement with the proposal to hold a Conference of the Universities in Toronto this spring. The date, however, that I first suggested, May 10th, is not suitable in some of the members. On inquiry I find that Tuesday, June the first, is a day that seems not to conflict with other meetings and engagements. Will you please therefore consider that the day of meeting will be Tuesday, June 1st?

I shall be glad to have any suggestions as to the programme that may occur to you not later than the first of May in order that I may draw up a tentative programme to be sent to the members for consideration before we assemble in conference.

Dear President Falconer:

I am very glad indeed to know that you are not allowing the most important suggestion of the Canadian universities' conference to be set aside even in the face of the difficulties presented by the war situation. I cannot but feel that Canada at this time is facing a most serious responsibility, namely that of preparing in advance a set of Canadian standards and ideals which can be put into effect when the war ceases and we are inundated with a flood of new comers from Europe. In this work, our universities should be prepared to take a place with the leaders.

The matter of graduate work to which you refer in your letter is most important; another important matter which requires conference is based on entrance requirements and details of curricula which affect migration of students. You have referred to this question in your letter. I believe there is a great deal of merit in the German idea of migration when properly regulated.

I shall be most interested in such a conference and feel that ours being the youngest university, would have most to gain. I shall hope to hear from you in regard to further particulars and unless something most unforeseen should occur would expect to be present.

Dear Falconer,

My thanks for your letter of the 1st of March.

It is very kind of the University to provide for the pill rims in the Residence. We are looking forward to the meeting with great pleasure.

What about the question of the admission of Greek Letter Societies into the University community? This question is bothering Tory and Macdonell, but it is sure to come up here shortly. There is also the question of the relation of the Professional Societies of the province to the University degrees. I think it is possible for us to make some progress in that matter.

Dear Sir:-

Pardon my delay in answering your earlier letter dated March 18th.

I have been waiting for an opportunity to discuss the matter with my Faculty, with a view to securing someone to attend the proposed Conference. The earlier date you suggested would make it impossible for any of us to get away, as our Closing Exercises come the latter part of May. However, since the date is postponed, we have appointed one of the members of our Engineering Staff, Professor Harry McKiel, to represent Mt. Allison.

I do not think that I have any suggestions to offer. We concur, however, very heartily in the desirability of reaching some uniform standard of matriculation. I trust the gathering will be highly successful, and, with very best wishes, I remain,

Toronto, Ont.

Dear Sir,

I beg to acknowledge the receipt of your favor of April 7th with reference to a Conference of the Universities of the Dominion to be held in Toronto, June the 1st. The University of Ottawa will be glad to send a representative.

If there is a programme already prepared we shall be pleased to have a copy of it.

I am,

Sincerely yours,

Dear President Falconer:

Your circular letter of April 7th has just been received in which the date of the meeting of the Universities is set for Tuesday, June 1st.

May I ask a few questions? Is the meeting to consist of more than the Presidents of the institutions or are Deans and Professors to be asked to attend?

I think that the matter of entrance requirements and of curricula of the various institutions in regard to migration and credits and the admitting of students from one institution to another would be very much worth while.

I shall expect to be with you.

Yours sincerely,

President Robt. A. Falconer,

My dear Falconer:

I duly received your letter of March 27th,
and also that of April 7th, which supplements it, concerning the
Conference of the Universities which it is proposed to hold in
Toronto this spring. I notice from your later letter that the
day that has turned out to be most suitable to all concerned is
Tuesday, June 1st. This will suit me, as far as one can
look ahead, just as well as the earlier date proposed.

I have no new suggestions to make as to the matters
to be considered at the meetings. I think that you have in mind
all that would concern us down here. You remember our discussion
when we were together on our Conference, concerning the effect of the
changes that are being brought about in Toronto, which makes the time
required for the course for a degree in Arts practically amount to three
years in certain circumstances. This whole question should be
explained to the other Colleges.

Then there is the question of how to deal with the
certificates issued by educational and other such bodies in the various
Provinces, so that all Universities may treat them in the same way,
that is, evaluate them in the same way.

Another point that might receive attention, though a minor one, is a common ideal as to what constitutes good standing when a student leaves a University for another, and asks for a transcript from the records.

Finally there is the very large question of fostering postgraduate work in Canada, and keeping within our own borders the train of young men who now go either to the States or abroad for graduate work.

With all good wishes, I remain,

Sincerely yours,

A. Stanley Mackenzie

OFFICE OF THE PRESIDENT.

Winnipeg, April 23rd, 1915.

President R.A. Falconer,
University of Toronto,
Toronto, Ontario.

My Dear President Falconer,-

Among the topics which suggest themselves in connection with the coming conference, I am most interested in the following:

1. Form of permanent organization of Conference.
2. Length of Matriculation Course in High Schools. (*no of years*)
3. Relation of Departments of Education and Universities re Matriculation Examinations.
4. Appointments and promotion in University. Faculties. (*President Falconer*)
5. Sources of income of Canadian Provincial Universities
(By Dr. Murray)
6. The ad eundem degree in Canada.
7. *The Officers Training Corps*
and always, of course, Requirements for Entrance.

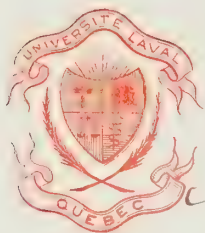

I believe it will contribute to the success and permanency of the Conference that attendance be confined to the members of the Conference, and that representatives of the press be not invited to the sessions. Of course, all of the papers presented and a full account of discussions would be printed in the Transactions as soon as the Conference is over.

Yours very truly,

Frederick A. Hearn

Dear Dr. Falconer,

It will give me great pleasure to do anything I possibly can to make the Conference of the Universities a great success.

After looking over the topics you have chosen, there are only two or three of them on which I could speak with any confidence, such as 'Length of Course for Degrees' and 'Methods of Appointment and Promotion' and if the topic of the General Course as contrasted with Honor Courses were up, I might have a word to say on that. The fact of the matter is, however, I will be so busily engaged with Conference duties that I would feel obliged to you if you do not ask me to take any part in the programme. If there are any duties I can discharge as host, I will be very glad if you will let me know. Mr. Massey has spoken to me something regarding the entertaining of the Presidents at the Hall. The trouble, of course, is that the Hall is closed, and the staff departed, but I know that Dean Massey had some idea of doing something in the matter. Be free to make any suggestion in the premises which you think will help.

Dear President Falconer:

I am much obliged for the copy of the provisional programme of the Conference of Universities, to be held in Toronto on June 1st.

If I am able to be present at the meeting, I should like to say a few words on the question of "Halls of residence, and rules for resident students", and the question of "Good standing required from students on transfer".

Unfortunately, the date clashes with the beginning of the University Examinations, but, if at all possible, I will make an effort to be present.

Dear President Falconer:

As I anticipated when I saw you last, it will be very inconvenient, in fact, almost impossible for me to attend the conference of University presidents to be held in your University, June 1st. I am therefore writing to ask that Dean R.W. Brock, of our College of Applied Science, be permitted to represent this University. He left this morning to attend the meeting of the Royal Society in Ottawa and I placed in his hands the outline of the program which I found awaiting my return yesterday.

There are a number of matters in which our University is very much interested and I have asked him particularly to get the views of all of you in the matter of the length of the college year, which is so much shorter in Canada than in the United States.

In this University we feel anxious to secure counsel and help from the older institutions and I feel quite convinced that the increasing importance of the conference will be evident to all, although perhaps more apparent to those of us who are remote from the center of population and of University activities..

Wishing you every success and anticipating through Dean Brock, a great deal of benefit for our own institution, I am,

Yours sincerely,

I duly received your note of April 28th accompanying a copy of the provisional programme for a Conference of the Universities to be held June 1st, and asking whether I wished to read a paper or speak on any of the enclosed subjects.

In reply let me say that all the topics provisionally suggested for discussion are ones that I feel more or less interested in, and, I think, all can be considered quite important, and I would not be surprised if I felt called upon to express myself in respect to several of them.

I think you may count upon me definitely as having something to say, I do not think I shall make it as formal as a paper, on postgraduate work and the evaluation of certificates issued by educational departments.

I am assuming that the

My Dear President Falconer,-

The outline of the provisional program which is enclosed in your note of April 28th is most attractive and promises a very profitable meeting. In regard to the suggestion that I select one of these topics I have a very deep seated feeling that my own return to Canada is so recent and the progress we have been able to make in Manitoba up to this time, is so slight that I would very much prefer to sit through at least one series of conference meetings before attempting to make any contribution. I am afraid I cannot promise to be entirely silent on all subjects, but I think that in the interests of the Conference I ought to promise not to say very much on any subject.

a list of your publications issued between July 1st
1914, and June 30th, 1915?

As it is my intention this year to group the publica-
tions by departments, I shall be obliged if you will indicate
your department on the list you send in.

Yours sincerely,

R. A. FALCONER
President.
